

# GALAXY

## sh2 SUPERSWEET YELLOW

**Galaxy:** is a main season sh2 yellow processor, with superior yield recovery and flexibility.

- **Field Performance:** Main season. Moderate vigor. Extreme recovery potential. Good disease resistance. Wide harvest window.
- **Processor Performance;** Freezes as both kernel and cob. Cans well. Pale colour as a cob, deep petite kernels. Excellent cylinder with small core. Very strong tip fill. Runs through plants well.
- **Management Points:** Record breaking recovery ability, don't harvest early. Good disease resistance, widely adapted outside of heavy MDMV pressure regions. Good stalk strength.
- **Maturity Slot:** Can be planted throughout the season. Handles tough conditions. Widely adaptable.

Plant Characteristics									Disease Resistance							Herbicide Tolerance
