

TECHNICAL SHEET

GRAIN SORGHUM – TIGER

For any Sorghum Paddock on any farm

A medium - quick maturity, highly adaptable, consistent yielder under all growing conditions, with very large grain.

WHO SHOULD GROW TIGER ?

Any grower seeking consistent commercial crop performance under all growing conditions and chasing a high quality large grain.

- Suited for Ethanol / Stockfeed – producing a very large, heavy grain with high starch
- Highly consistent commercial performance – Tiger is very adaptable and outperforming opposition hybrids across the board
- Excellent early plant, cold start performer-can be planted first on all farms
- Very tough and adaptable – Tiger can be grown on any farm, under all conditions
- Plant some next to your favourite hybrid.
- Medium – quick maturity
- Medium/Even tillering
- Proven 10MT/Ha yielder
- Five star standability – for harvest security and yield protection
- Midge tested 3

MATURITY:	MEDIUM - QUICK	TILLERING ABILITY:	MEDIUM - EVEN
HEAD TYPE:	SEMI - CLOSED	MIDGE RATING:	3
GRAIN COLOUR:	RED	STANDABILITY:	VERY GOOD *****
POLLEN PRODUCTION	EXCELLENT	O.P.REACTION:	N/A
YIELD TARGETS:	2.5T/Ha – OVER 10 T/Ha	DISEASE RESISTANCE:	VERY GOOD
DROUGHT TOLERANCE:	OUTSTANDING	HEIGHT:	MEDIUM
RECOMMENDED PLANT POPULATIONS :	(PLANTS / HECTARE)	DTF (Early Plant)	65 - 75
MARGINAL DRYLAND	20,000 – 35,000	DTF (Late Plant)	60 - 70
AVERAGE DRYLAND	30,000 – 45,000		
GOOD DRYLAND	40,000 – 75,000		
IRRIGATION	100,000 – 150,000
