

TECHNICAL SHEET MAIZE – AMADEUS

SPECIALITY CORN FOR PROCESSING MARKETS

HSR Seeds first true full season flint corn designed for the processing and specialty markets that require a deep yellow/orange hard textured corn.

WHO SHOULD GROW AMADEUS?

Maize growers that are able to attract a gritting contract or those looking to supply the equine market or supply customers with a demand for a hard grain type. Growers that want a stable hybrid that has performed exceptionally well during its development and pre commercial release should look at Amadeus. It is a full season hybrid that can take full advantage of longer growing seasons.
